

Press Release, 16:00 CET, Tuesday 12 December, 2023

# Changes in Formpipe's organization.

**Formpipe is taking several steps to further strengthen its market position. From January 1, 2024 the business areas for the Swedish and Danish public sectors will be merged into one. Thomas à Porta is appointed Executive Vice President, Head of the new Business Area Public. Michael Rogers is appointed Executive Vice President, Head of the Private business area.**

"I intend to lead Formpipe into a new phase of growth. I see great advantages in one organization for our business that target the public sector. The business logic is the same across the national borders. The merger creates clarity and focus. We have a strong market position in both Denmark and Sweden. When we join forces, we can free up resources for customer dialogue, innovation and development. We will consolidate our leading market position in our areas of expertise. It will benefit our customers and their needs", says Magnus Svenningsson, CEO Formpipe.

Thomas à Porta, who is currently Business Area Manager for Public Denmark, has been appointed Executive Vice President and Head of the new combined Business Area Public. Thomas has extensive experience from leading roles in the IT industry and has been employed by Formpipe since 2012.

Michael Rogers, who has been acting head of business area Private since April, has been appointed Executive Vice President and Head of the Private business area with a clear mission to expand Lasernet globally. Michael has over 20 years of commercial experience with Formpipe's products and has been employed by the company since 2019.

Formpipe thus starts 2024 with a new segment reporting as of January 1.

The Group's segments are divided based on the customer groups they address.

- The Public segment have its customers in the Nordic public sector.

Formpipe builds valuable relationships between data and people. We are driven by our core values and since 2004 we have developed premium software that provides you with the right information, in the right context, at the right time. Every time.

We help over 5,500 clients worldwide to digitize and automate business processes. Together with our customers and partners, we co-create a digital society where people thrive. We have offices in Sweden, Denmark, United Kingdom, USA and Germany. Formpipe Software is a publicly listed company on Nasdaq Stockholm.

- The Private segment gathers the Group's offers that target customers outside the public sector and are not tied to a specific geographic market.
- Segment Other includes the Group's older products that are not included in any of the other segments, as well as the Group's over-head costs.
