Press release, June 29, 2015

Danish municipality choose ECM-product Acadre from Formpipe

The Danish municipality, Glostrup Kommune announces, through a contract award decision, that they intend to sign an agreement with Formpipe regarding the ECM-product Acadre. The total order value amounts to SEK 4 million over a four-year period.

Glostrup Kommune selected Acadre based on the best score on “value for money”.

“The need for more efficient administration and citizen services is driving demand for our ECM products. Our strong position in the public sector offers us great opportunities when municipalities, county councils, and governmental agencies need to consolidate their information processing to increase efficiency,” says Christian Sundin, CEO of Formpipe.

The contract award decision gives the contract to Formpipe and in accordance with the Public Procurement Act follows a standstill period for 10 days before contract can be signed. During this period, other suppliers may apply for a review procedure at the Administrative Court.
