Press release, December 17, 2014

Formpipe receives order from a Swedish municipality worth SEK 1 million

Formpipe receives a supplementary order on the ECM product W3D3 from a Swedish municipality. The total order value amounts to SEK 1 million.

“We are continuously working on developing modules to our core products for the public sector. These modules are the result of close collaboration with our customers and they create immediate e-government benefits – such as digital meeting management by using tablet devices. We continue to create increased benefits for our customers and new license revenues for Formpipe”, says Christian Sundin, CEO of Formpipe.

Of the total order value, license revenues of SEK 0.6 million are recorded in fourth quarter of 2014, while associated revenue will be allocated throughout the contract period.
