Press release, February 02, 2016

## Supplier applies for a review procedure regarding e-archive procurement

On January 25, 2016, three Swedish municipalities announced, through a contract award decision, that they intend to sign an agreement with Formpipe regarding a cloud service for archiving, for joint use by the municipalities. This was, in accordance with the Public Procurement Act, followed by a standstill period during which other suppliers could apply for a review procedure at the Administrative Court.

A supplier has now applied for a review procedure of the procurement and the standstill period will therefore be extended until the administrative court has ruled on the case.
